Fed-up residents take the law into their own hands

Tafelkop residents, who are fed-up with criminals targeting their community, have taken the law into their own hands. This is after a string of crimes committed at Mashemong Section in the village recently. According to residents, a number of community members, particularly women were robbed of their hand bags when returning from work. Apart from the armed robberies on the streets, there is also a house breaking outcry where residents are woken up by intruders with guns robbing them inside their houses. Some residents have reported wheels removed from their vehicles and other objects including wheelbarrows being stolen during the night. Cases were reported with the police with no arrests made, leading to the community to hunt and catch the thieves to deliver a swift justice. Three alleged criminals were caught in separate incidents and given a taste of mob justice before they could be apprehended to the police. A community member, who did not want to be named, said the criminals have been terrorizing the community since the announcement of the nationwide lockdown in March. "The crimes are committed mainly by nyaope addicts who were chased away from Groblersdal Town as a result of the lockdown regulations. They are back in numbers in the village to commit crime and feed their habit. A number of cases were reported but no one was arrested which angered the community to end up punishing the criminals," he said. He said the criminals target defenseless women who are coming from work to rob them of money and cellphones. "They wait until it gets dark and start with their mission targeting women because they cannot fight back, robbing them on gunpoint," he said. He added that three of the robbers were caught in the act and assaulted brutally by angry residents. He said the latest incident happened a few weeks ago where a middle aged man was caught after robbing a woman who was on her way home from work in Groblersdal. "The woman was on her way home passing next to AFM Church next to Nonyane filling station around 19:00 when a

One of the alleged criminals lying helplessly in a pool of blood after he was assaulted by the community of Mashemong Section in Tafelkop.

gun was pointed at her. Her handbag was taken with money inside. She screamed for help, community members responded quickly to give

a chase and the man was caught. Residents mobilized and the alleged criminal was assaulted with anything that they can lay their hand on baying for his blood. He was rescued by the police and still in hospital fighting for his life," he said. He said the other criminals who were assaulted by angry residents were rescued by soldiers who were patrolling to monitor lockdown regulations. Limpopo Provincial Police Spokesperson, Brigadier Motlafela Mojapelo was not immediately available for a comment at the time of going to print.

SDM : "Officials will be held accountable!"

The Sekhukhune District Municipality responded to the allegations whereby senior officials within the municipality, irregularly awarded tenders to companies that were to provide water as part of the Covid-19 Disaster Management Emergency Relieve Intervention Projects. R26 Million was set aside for the projects and the appointment of the companies was intercepted just before they can commence with their services, after it was discovered that they improperly awarded the tenders as they were not complying. The matter has implicated several senior officials who played a role in the appointment of the companies allegedly on self-benefit. According to Sekhukhune District Mayoral Spokesperson, Willy Mosoma, In June 2020, the municipality has irregularly awarded several companies from its database for the Covid-19 emergency relieve projects. Following internal checks and controls, the district municipality has since halted the processes due to alleged non-compliance with supply chain management policies. "It is therefore that, Executive Mayor Cllr. Keamotseng Stanley Ramaila, appointed a Committee to investigate the alleged malpractice and also referred the matter for judicial review. To this end, the High Court has granted the district municipality an Interim Order. And in addition, internally, all the affected officials on the matter have been served with letters to make their own representations," he said. Executive Mayor Ramaila said the municipality will deal decisively with corrupt officials who played a role in the irregular appointment of the companies. "What this simply means is that, the court has granted us this relief on the basis of self assessment towards good governance. The people of Sekhukhune must understand that nobody has taken us to court; rather, it was ourselves who suspected non-compliance with due financial processes and went to court for confirmation of our suspicion. This for us is a victory towards a fight against fraud, corruption and maladministration. If need be, we can confirm that disciplinary action will be taken against all employees who might be found wanting. At the same time, we are doing everything in our power to ensure that these much needed Covid-19 intervention projects, gets implemented on time for the benefit of our communities, however, within the confines of proper financial protocols," said Ramaila.

Free basic electricity

Limpopo indigent household are urged to claim free basic electricity from Eskom, the power utility said in the statement. "Qualifying households i.e. unemployed, low-earning, the destitute and the elderly, in terms of the Municipal Indigent Policy, are encouraged to approach their municipalities to register as indigents in order to collect their allocated free basic electricity every month. Customers on municipalities' indigent household registers have the right to collect a minimum 50 kilowatt hours (kWh) of electricity for free every month. Unfortunately, a number of indigent households do not exercise their right, either because they are unaware of the free basic electricity, or because they have not registered with the municipality," reads the statement. Customers who have been advised by their respective municipalities that they do qualify for the FBE benefit are urged to not let this relief go to waste. To claim the benefit, customers should visit their nearest vendor. Alternatively, USSD codes *130*869# or *130*269# are already configured for customers to claim the benefit via a cell phone at no charge to the customer. Customers who wish to ascertain whether they qualify for the FBE benefit, should do so by contacting their local municipality, local ward councillor or a community development worker.

Farm supervisor fatally shot in armed robbery incident

The Marble Hall Police have launched a massive manhunt for about three suspects who allegedly shot and killed an employee at a citrus farm outside Marble Hall Town on Saturday 25 July at about 13:00. According to Brigadier Motlafela Mojapelo, the victim was apparently paying farm employees when he was attacked and shot by unknown suspects. "It is alleged that a 39-year-old deceased, Jeremias Solomone Macheaque,

was seated inside a vehicle, busy paying farm workers their wages on behalf of his employer when he was accosted by about three unknown men. They ordered him to give them the money while one of them pointed a firearm at him. He was then shot and the suspects grabbed

the money, pulled him out of the vehicle and drove off with it," said Mojapelo. He said the vehicle was later found abandoned about 1KM away from the crime scene. "The employee was certified dead by the Emergency Medical Services (EMS) on their arrival at the crime scene. A case of murder is under investigation," he said. Mojapelo said the police appeal to anyone with information about the suspects to contact Lt Colonel Patrick Makgopa on 082 565 8446, the crime stop number on 08600 10111 or contact the nearest police station.

Regional Football Leagues still in the dark

After the Board of Governors (BOV) that comprises officials of the South African Football Association (SAFA) and the Premier Soccer League (PSL), given a green light for PSL and ABC Motsepe teams to resume with the 2019/2020 League from 8 August, teams participating in the SAFA SAB Regional Leagues are still in the dark. The SAB teams are still awaiting a go-ahead from SAFA as a result of unintended consequences brought by the Covid-19 pandemic. SAFA Sekhukhune SAB Regional Football League Coordinator, Frank Maredi, told the Dispatch that chances of nullifying the leagues are very high in the regions. "This is because our facilities are very poor and not complying with the Covid-19 Regulations. There is no way we can arrange matches to play in sports grounds during this Covid-19 period. Only teams playing in the

upper leagues can qualify as they are using proper facilities like stadiums," he said. According to Maredi, propositions are made that the league will be completed as it stands and the team that occupies the first position per stream declare winners and advance to play in the Sekhukhune Regional Playoffs, where the winners will be representing the region in the provincial level. Maredi added that they are worried about illegal football tournaments and matches taking place around the villages. He added that steps will be taken against coaches and teams owners who will be found violating the law by organizing and participating in those matches. "Four teams were held accountable as we speak and necessary disciplinary actions will be taken against them. Probably, they could be suspended from participating in the regional league," he said.

Gunmar donate whistles in fight against crime

Due to recent attacks and robberies against women coming from work around Nonyane Filling Station and other areas around Mashemong Section in Tafelkop Village, Gunmar Security and Emergency Services donated whistles to locals to fight crime. The 'Whistle Against Crime Campaign', is an initiative by Bana Ba Sekhukhune Community Solutions, a social community based organization that approached Gunmar to donate towards the drive to curb criminal activities perpetuated in the area lately. Two hundred whistles were handed-over to residents on Monday 20 July at AFM Church in Tafelkop. According to the chairperson of Bana Ba Sekhukhune Community Solutions, Jeffrey Walker, the supplied whistles will be used by women as a warning during attacks or break-ins. Gunmar Security Manager, Wayne Wagener said they have been supporting the initiative for a number of years to ensure safety of residents, especially women and children because they are the vulnerable group. "We support Whistle Against Crime since 2017. Since then, when the campaign is activated, we donate whistles and offer a 24 Hours emergency services to the community of as a back-up means in case of life threatening situations," he said.
